INTERACTIVE HOME LIGHTING CONTROL SYSTEM

IT LETS YOU CREATE

HOMEWORKS interactive

▪ SECURITY ▪ AESTHETICS ▪ CONVENIENCE ▪ INTEGRATION ▪

Light interacts with everything in your home... your furnishings, your decor, your architecture. It interacts with your lifestyle. It interacts with you.

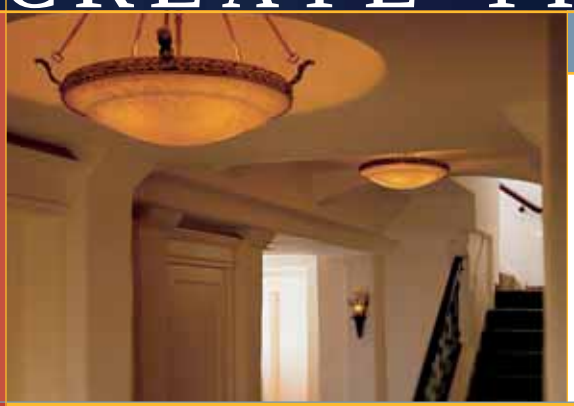

Lutron's HomeWorks Interactive Whole-Home Lighting Control System will change forever the way you've thought about light and your environment.

Its unparalleled capability to adjust, control, and interface with lighting, entertainment and security systems sets it apart from anything else you have ever imagined.

It will change the way you demonstrate your sense of style. It will let you create.

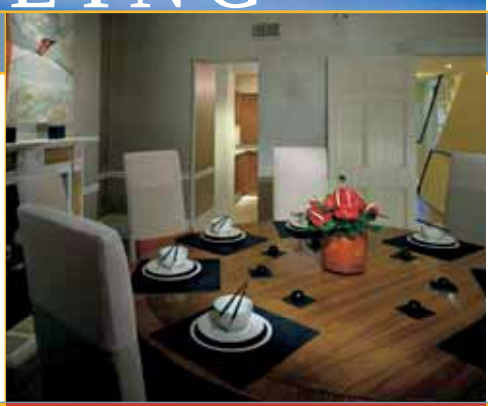

LUTRON®

CREATE THE FEELING

ON ARRIVAL

Disarm your security system as you arrive, which triggers HomeWorks Interactive to light the way from garage to kitchen without fumbling for switches. A series of dimmed lights turns on as you approach, and off when you've passed.

INTERACTIVE LIGHTING CONTROL

HOMEWORKS interactive™

A SENSE OF SECURITY. Comforting, reliable, inconspicuous, yet highly effective. How do you quantify a feeling? How do you measure the benefits of knowing HomeWorks Interactive is there, working, whether you're home or away? At the touch of a button, it lets you focus on the important moments, on the quality time, while it quietly casts just enough light on the outside, and warms the inside.

Touch one button to set evening lighting levels and motorized shades throughout the interior of your home. Then let the system's timeclock set landscape and security lighting outside– automatically adjusted for the onset of darkness in any season.

INTELLIGENT

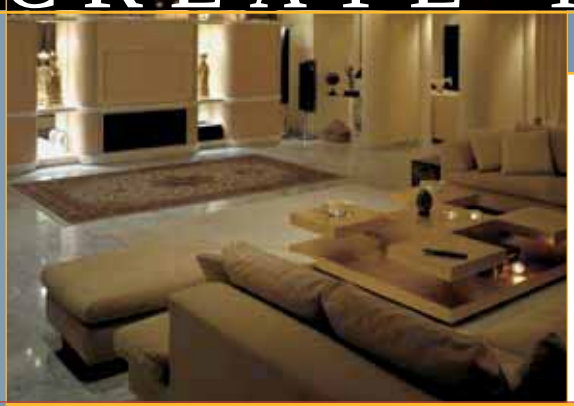

HomeWorks Interactive can make systems events conditional. For example, a single button on a keypad might set different lighting and music, based on time of day, for breakfast, lunch, and dinner.

ON HOLIDAY

HomeWorks Interactive replays your normal, everyday lighting patterns for a realistic lived-in look when you're away. Touch one button as you leave, or even activate the system by phone, from anywhere, after you've left.

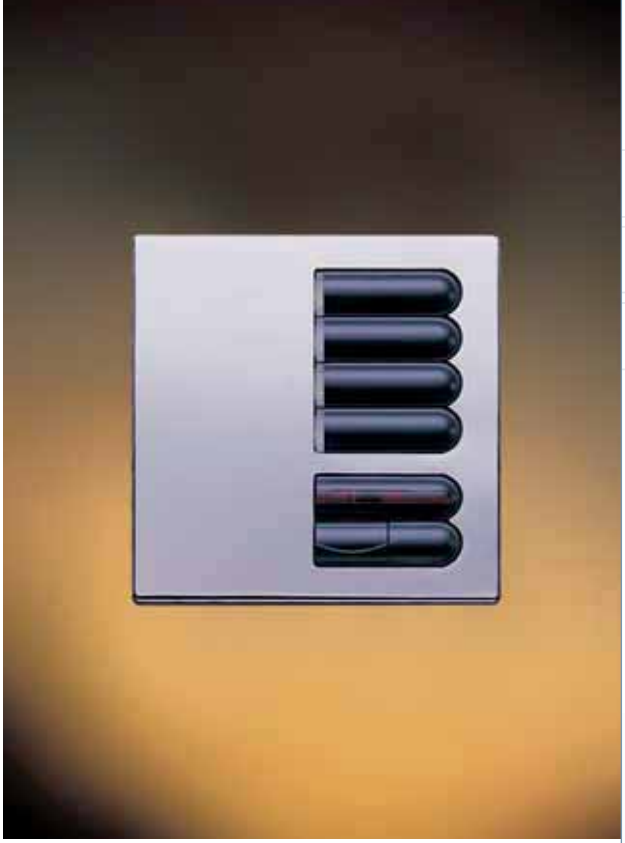

CREATE THE MAGIC

SET THE STAGE

Touch the "Preshow" button as you enter. Your guests settle in comfortably as soft music and lighting, subtly and automatically, create the perfect preshow ambiance. Touch the "Showtime" button on your remote, and then...

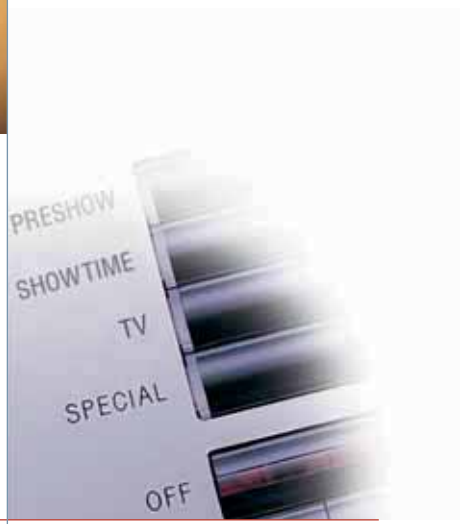

INTERACTIVE LIGHTING CONTROL

HOMEWORKS interactive™

PUSH A BUTTON. WATCH THE MAGIC UNFOLD. As the spectrum of entertainment options expands, so too does your need to control technology—with the one-touch simplicity of HomeWorks Interactive. Gather friends, press one button, and witness the flawless execution of a customized entertainment experience. Or, retreat to your sanctuary at the end of the day. Press one button: lighting is softened, perfectly and automatically, as your favorite CD begins, and the day comes to a soothing end.

A single button starts the magic: lights and shades adjust, screen reveals, audio and video systems are activated.

THE MAGIC BEGINS

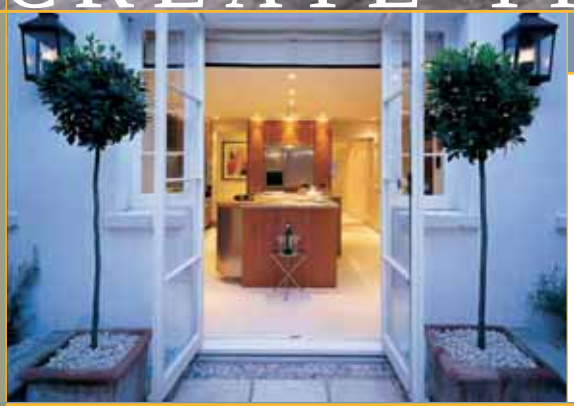

Lights dim gradually, curtains slide open, opening credits roll as the music and excitement build. Your audience is enthralled as the experience unfolds and envelopes them—seamlessly, perfectly—with you in command.

SHOWTIME

Action, adventure, comedy, or drama. Favorite TV shows, sports, and video games. HomeWorks Interactive lets you create the perfect setting for everything you experience in your cinema with one-button orchestration.

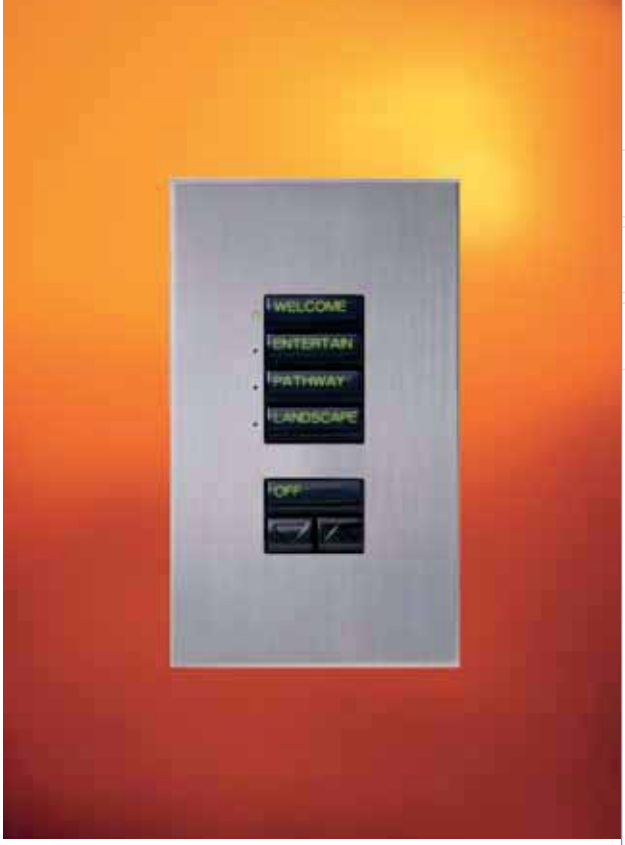

CREATE THE MOMENTS

JUST FRIENDS

Entertaining outdoors is made more elegant, more intimate, more memorable with lighting adjusted to create an ambiance suited perfectly to the occasion.

INTERACTIVE LIGHTING CONTROL

HOMEWORKS interactive™

TAKE A FEW MOMENTS, TAKE SEVERAL. HomeWorks Interactive lets you enjoy your home in more ways than you ever envisioned. The ease with which you can alter settings lets you invent the character and personality of any space, for any occasion. At the touch of a button, the interplay of variations, textures, and shadings creates a scene made special for you, or an event made special for everyone.

Imagine being able to control all your lights from master controls placed anywhere you need them.

JUST YOU

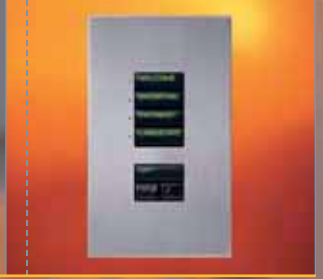

Unwind, take some quality time for your spirit. Bathe yourself in the luxury and warmth of lighting designed for a private indulgence in moments of peace and quiet.

JUST FAMILY

After work, after the routines and comings and goings, make your evening something far more special with lighting that turns the ordinary into an extraordinary occasion.

HOMEWORKS interactive™

THE UNIQUE DESIGN OF HOMEWORKS INTERACTIVE allows you to choose among several types of wall controls according to your own preferences, lifestyle, and the design of your home. With recommendations from your system designer, you can tailor the optimum combination of style and function for your unique home.

SEETOUCH™

New seeTouch™ keypads feature large, easy-to-use buttons, plus a unique backlit engraving feature that makes the keypads readable any time of day or night.

SMART PROGRAMMING

HomeWorks Interactive systems can be set up so that a desired function is triggered only when a specified condition is met. Called "conditional logic," this capability, for instance, turns on lights when your car enters the driveway, but only if it is dark.

INSTANT ALL ON

HomeWorks Interactive allows you to turn on every light controlled by the system with one button on a keypad. Ideal in the master bedroom. Plus, all HomeWorks Interactive components are designed with a 10-year power-failure memory. If power is interrupted and restored, lights will automatically return to the levels to which they were set prior to the power outage.

BEHIND THE SCENES

Shown here are some of the controls that you might see on your walls. Yet the power of HomeWorks Interactive is in what you don't see. Each keypad and dimming control is linked to a remote power module and a powerful processor, which manages the communication throughout the system.

GRAFIK EYE® PRESET LOCAL CONTROLS

Preset scene controls for a group of lights in one room or area. Scenes can be easily modified by the homeowner. Ideal for multi-purpose rooms, such as living rooms, dining rooms, and home theaters.

LUTRON®

EXPAND IN THE FUTURE

Though designed almost exclusively for new construction, HomeWorks Interactive allows you to pre-wire portions of your home so that lights can be added to your system, even after construction is complete. If your life changes so can HomeWorks Interactive.

KEYPAD SELECTIONS

SIMPLIFY YOUR HOME. HomeWorks Interactive is designed to simplify, not complicate, your life. For instance, pressing a single button marked "entertain" sets the perfect lighting to showcase your home. Compare this to the confusion of six, seven, or even more unmarked switches and dimmers at each door and hallway which must be individually adjusted for each activity.

CUSTOM ENGRAVING

Select the name designations you want for room settings, scenes, or functions, and Lutron will engrave your keypads at no additional charge.

REDUCE WALL CLUTTER

In contrast to the clutter and confusion of an unappealing bank of switches and knobs, simple keypads can control all lighting, motorized window shades, and other systems from as many locations as you choose.

HOMEWORKS MAESTRO- LOCAL CONTROL FOR HOMEWORKS INTERACTIVE

Ideal for guest bedrooms or children's room where a simple control is preferred, these local controls can be activated from any keypad in your home.

HOMEWORKS interactive

As you sift through dozens of options and decisions in the course of designing your home, in many cases you'll have the reassurance of knowing the names behind the products you choose.

When you choose HomeWorks Interactive, you should know that among architects, designers, builders, and installers, the Lutron name has been widely acknowledged for forty years as the unchallenged standard for quality, innovation, and service.

LUTRON INNOVATION

Lutron invented the world's first solid-state dimmer in 1961. Since then, Lutron has pioneered a steady stream of breakthroughs in lighting control including the first multi-scene preset lighting control, the first wireless radio frequency lighting control system, and many more.

LUTRON QUALITY

Lutron's ISO 9001 Certification ensures customers that Lutron designs, engineers, and manufactures all of its own products, while maintaining consistent quality.

ENERGY SAVINGS – AN ADDED BENEFIT

Lutron dimmers save energy and extend the life of light bulbs. For example, dimming an incandescent light by 50% uses 40% less electricity and multiplies the life of the bulb by 20 times.

TECHNICAL HOTLINE

Worldwide technical assistance is available in 140 languages, at 1-610-282-3800(US/Canada). Technical Specialists are just a phone call away to answer any question you may have about your HomeWorks Interactive system (For Europe, contact your local sales office listed on the back of this brochure).

LUTRON®

THE PALETTE

As you come to appreciate and comprehend fully the ways in which HomeWorks Interactive will change the role of lighting in your home, bear in mind that the matchless sophistication and simplicity of HomeWorks Interactive comes from Lutron, a company that has been changing the way people perceive light for nearly four decades.

More than anything, HomeWorks Interactive gives you a new sense of freedom. The freedom of knowing your home will always keep pace with your lifestyle. The freedom from concerns about your family's security. The freedom to transform the character of your home at the touch of a button. The freedom to create.

HomeWorks Interactive controls are available in the following colors and metal finishes:

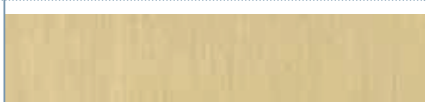

MATTE FINISHES

METAL FINISHES

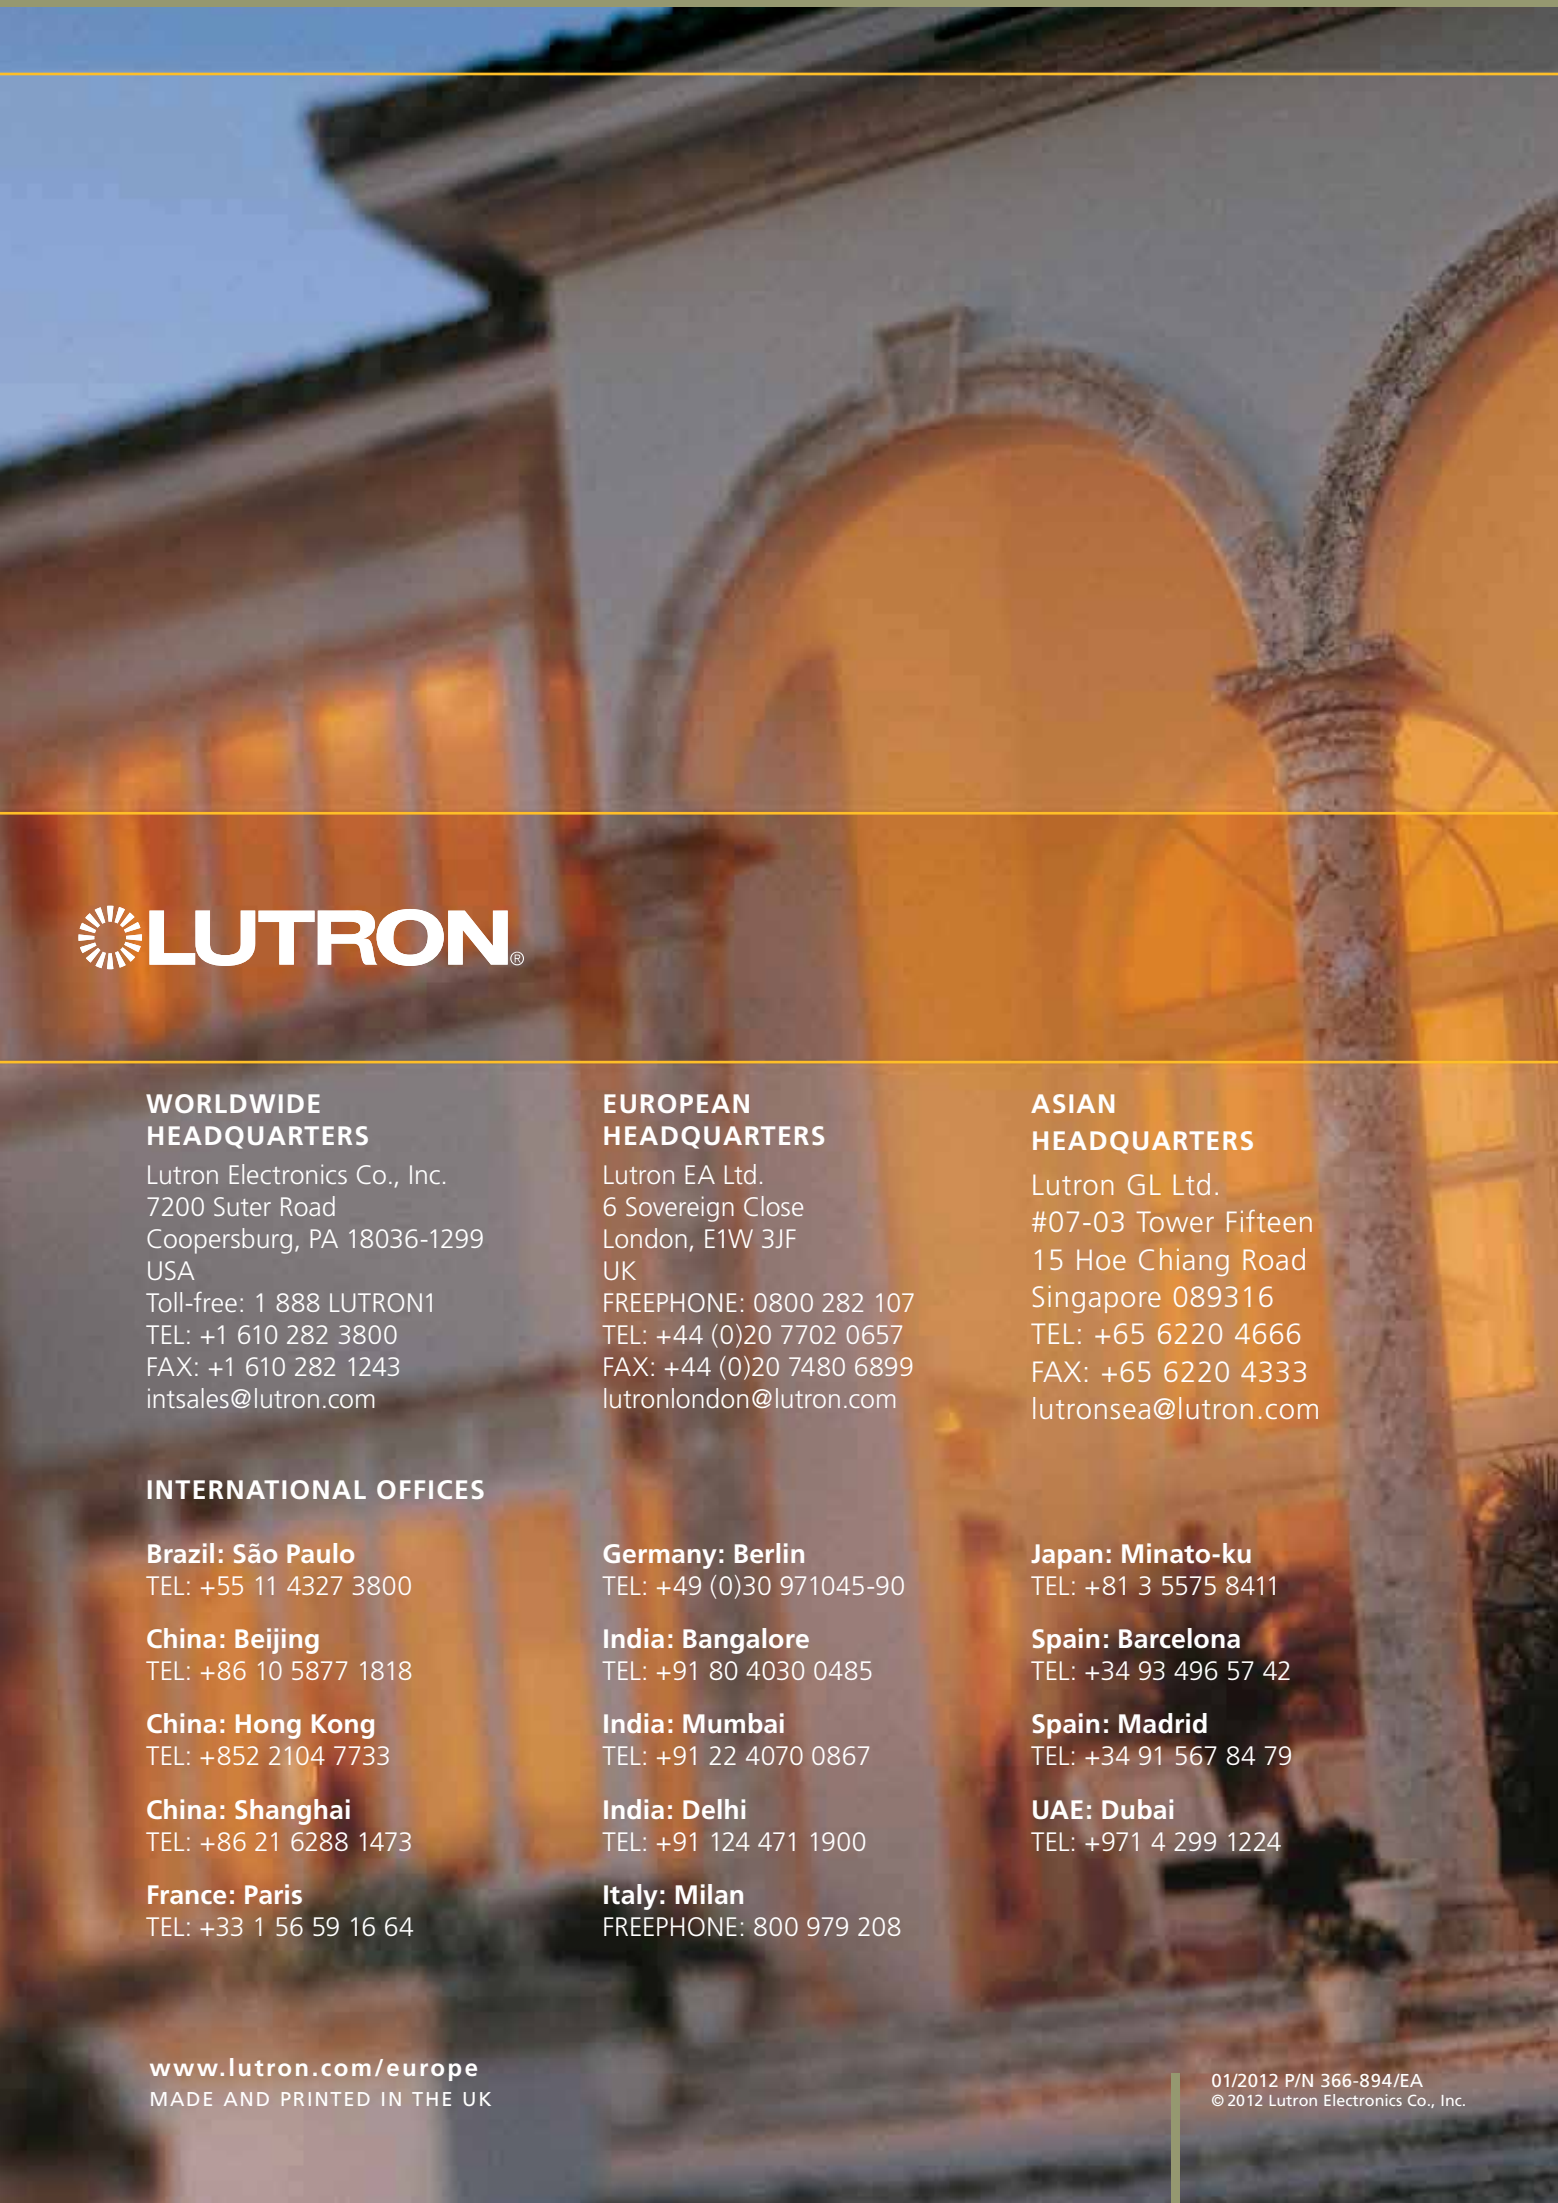

Additional custom colors are also available to match paint colors, wall coverings or furnishings.

LUTRON GUARANTEE

All Lutron products ship guaranteed to work, and each is tested to perform under the most demanding field conditions. In addition to an 8-year limited warranty, HomeWorks Interactive is backed by Lutron, the unquestioned world leader in lighting controls.
