MECHANISM MOUNTING OPTIONS

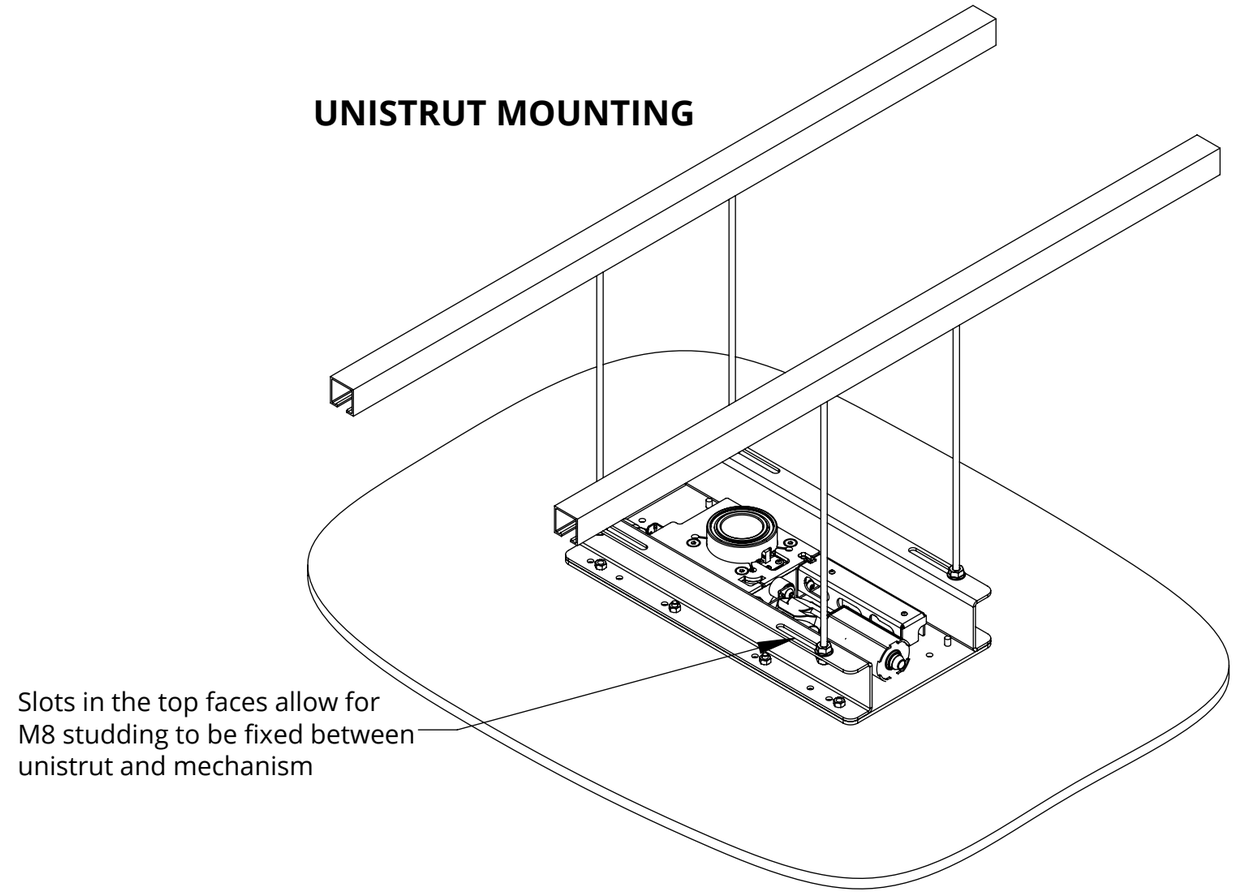

The mechanism is supplied with all necessary components for mounting between joists, on a flat platform between joists, or to suspend from a Unistrut arrangement above.

Telescopic Joist Mounting Brackets are attached as standard and must be removed for platform or unistrut mounting.

CABLE MANAGEMENT

The PME's mounting allows for cables from the screen to be fed through the intergrated cable management. This allows the cables to be stowed tidily and safely within the mechanism.

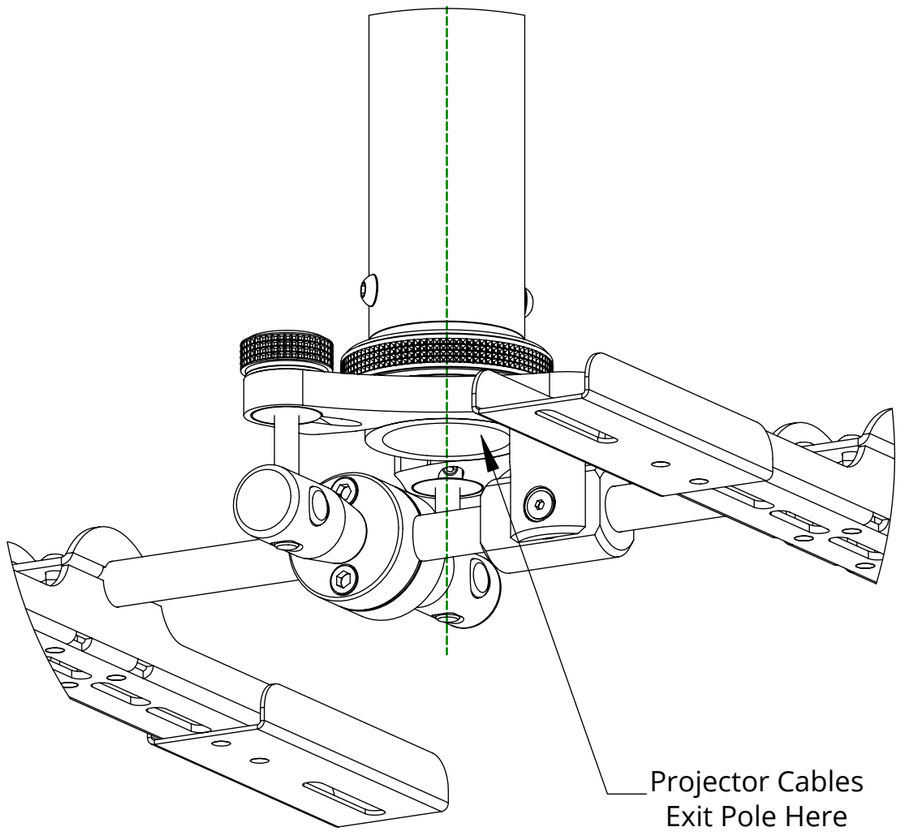

The Mechanism Cable should be routed to the provided control box. This should be stored in an easily accessible location.
